OBJECTIVE

Dedicated and detail-oriented B.Sc. Artificial Intelligence & Machine Learning student with a solid grounding in programming, web development, and data management. Enthusiastic problem-solver looking to learn new technologies. Exposed to Python, C++, R, and front-end with HTML, CSS, and JavaScript. Certified in various programming certifications in Python. Looking for an internship position to put my skills into practice, to be part of a dynamic team, and to acquire hands-on industry experience.
